

Our program is SARAH Inc. I like being here to work on money skills and learn how to do the laundry. It helps me learn how to pay the bills. The staff are good to me and I am good to them. I love going out to deliver food. We deliver food to people's houses and it is very important we bring it to them because they can't get it themselves. I like to come to program and exercise so I can stay healthy. I like to come play Connect 4 with my staff. It is important to me to come to program and stay busy.
